About Us

Guangdong Meicen Medical Equipment Co., Ltd. is an enterprise with independent R&D capabilities, and offering medical equipment R&D manufacturing, sales and services, supported with a more than 8000 square meters' modernized workshops and excellent R&D engineers, technicians, warehouse management and well-trained sales team.

Meicen is dedicated to providing high quality immobilization products for radiotherapy and orthopedic rehabilitation. Its core products include Thermoplastic Masks, Patient Positioning Devices and Components for Radiotherapy, Vacuum Cushions, Thermoplastic Splint Material, Thermoplastic Orthoses and Orthotic Components. All our products are in compliance with ISO13485:2016 certificates, SFDA, CE and other international regulations, and have been widely used and highly recognized, and hence Meicen has become one of the core suppliers of thermoplastic sheet materials in the world.

"Quality, Service, Harmony, Innovation" is our company philosophy, we take exquisite technique as core strength, keep improving and manufacturing supreme products with innovative technology, provide excellent service through scientific management together with our partners around the world.

SBRT Immobilization System

Meicen SBRT Immobilization System is highly accurate, comfortable, multi-functional and user-friendly device for SBRT treatment, which is compatible with the couchtops of Elekta, Varian or other brands. The paddle design on the belly and knee bridges can be adjusted in the direction of left and right, up and down to control the breathing range of the patient effectively during the treatment. The quick-lock and unlock system of the bridges is effortless. And, there are scales to record the fixed positions.

The system features a single-size breathing bridge that is fully adjustable to suit all patients. And the abundant scale marks improve the accuracy of positioning repeatability.

It can be used with Wing Board, Vacuum Cushions, Thermoplastic Masks, SRS Immobilization System and other products to provide various immobilization solutions for Radiation Therapy.

SBRT Immobilization System Solutions

SBRT Immobilization System

High accuracy

Clear and precise scale, improves the accuracy of positioning repeatability.

Patient comfort

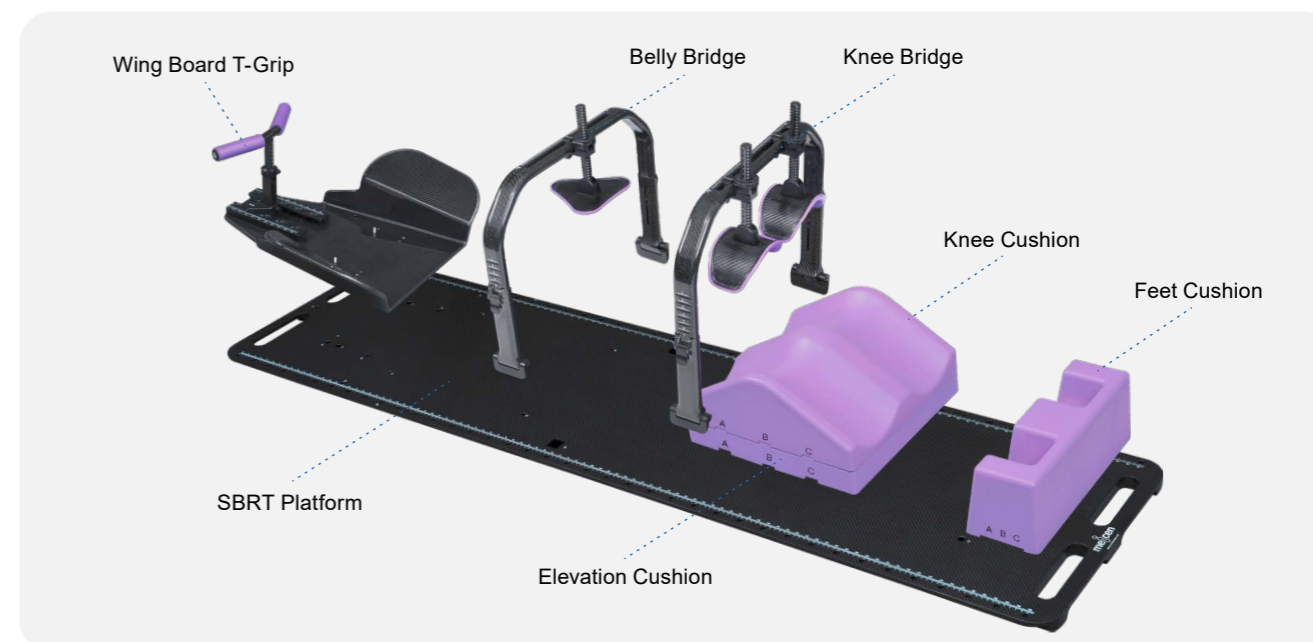

Ergonomically design for patient comfort.

Versatility

Multifunctional design, simple to form a set-up for various demand.

User-friendly

Easy and simple to operate.

SBRT Immobilization System - Components

SBRT Platform

MC-STF001-A01 Carbon Fiber

MC-STG001-A01 Glass Fiber MR

- Specification: 2000mm (L) x 530mm (W).
- Multiple corresponding holes, efficient indexing, install without restraint.
- Lightweight, easy to move.

Wing Board T-Grip (Page 28)

MC-WBF001 Carbon Fiber

MC-WBG001 Glass Fiber MR

- T-Grip design provides comfortable arms extension.
- Can be used with the T-Shaped Vacuum Cushion, RC-E3005F or RC-E3010F.

Belly Bridge

MC-STF001-A02 Carbon Fiber

MC-STG001-A02 Glass Fiber MR

- Ergonomic Compression Paddle for better comfort.
- The Paddle device can be adjusted in the direction of left and right, up and down, and has scales to record its fixed position.
- Abundant scale marks improve the accuracy of positioning repeatability.

Knee Bridge

MC-STF001-A03 Carbon Fiber

MC-STG001-A03 Glass Fiber MR

- The knee paddle device can be adjusted left and right, up and down, and has scales to record its fixed position.
- Abundant scale marks improve the accuracy of positioning repeatability.
- Knee paddle device is optional in double leg or single leg immobilization.

SBRT Immobilization System - Components

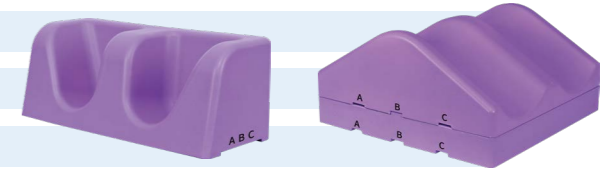

Knee & Feet Cushion (Page 61)

RE-FCA01 Knee Cushion

RE-FCA03 Feet Cushion

RE-FCA02 Elevation Cushion

- Easy to operate, improve the comfort and stability of supine position during fixation.
- It can be directly fixed on the CT couchtop for use.

Feet Cushion

Knee & Elevation Cushion

T-Shaped Vacuum Cushion (Page 54-56)

RC-E3005F Non-open headrest

RC-E3010F Open headrest

- Specification: 125x110cm.
- Open headrest area can be used together with the headrest to reduce the ray blocking.
- Provides arms-up positioning and support the torso region.

Shoulder Retractor MC-STG001-A08

- It can be used with the SBRT Platform to improve patient comfort effectively and reduce involuntary displacement.

Headrest (Page 58)

RE-HSB5 Color Headrest, 5 Sizes, A to E

RE-HSB5

RE-HSC6

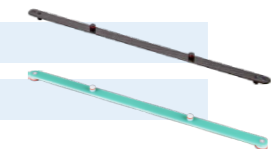

RE-HSF6

SBRT Indexing Bar

MC-STF001-A07 Carbon Fiber

MC-STG001-A07 Glass Fiber MR

- Allows positioning devices to be fixed to the SBRT Platform for enhancing reproducibility.

➤ SRS Immobilization System

Meicen SRS Immobilization System is composed of SRS Cradle, SRS Masks and Elastic Headrest. It can better meet the clinical needs of fixation and accurate body positions in stereotactic radiosurgery for patients with head tumors.

- Streamlined and hollow design to minimize ray blocking
- Formed in integration secures durability and solidness
- Small and compact, easy to store
- Strong versatility, adaptable for a variety of baseplates

➤ SRS Immobilization System

SRS Cradle

MC-SRF001	Carbon Fiber
MC-SRG001	Glass Fiber MR

Pin-Lock

· Compatible with Meicen C-Series, Civco or other S-type baseplates

SRS Cradle

MC-SRF004	Carbon Fiber
MC-SRG004	Glass Fiber MR

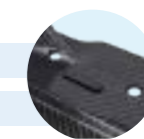

Rotary-valve

· Compatible with Meicen A-Series or Orfit L-type baseplates

SRS Cradle

MC-SRF002	Carbon Fiber
MC-SRG002	Glass Fiber MR

Insert

· Compatible with Meicen P-Series or MacroMedics baseplates

The Meicen SRS Cradle is equipped with a high-strength, well-fitting SRS Masks. The upper and lower double layers provide more accurate fixation. The SRS Masks can be used to personalize the shape of the occipital of patient's head and strengthen the supporting force.

For more Meicen SRS Masks, please see page 10-11.

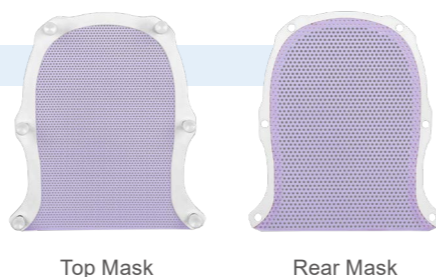

SRS Masks

Meicen SRS Masks provide both anterior and posterior cranial support, variety of options are available to meet different clinical demand.

SRS Masks Set (A)

Meicen C-Series Baseplates

The Meicen C-Series Baseplates have a Pin-lock design for easy operation, provides the highest degree of stability for head, head-shoulders, thorax, pelvic and full-body support. Dual-configured for adult and pediatric treatments. The C-Series Baseplates are lightweight, and adjustable shoulder retractor with shoulder suppression. It is compatible with all S-type Masks and Meicen Pin-lock type Masks.

- Contoured design for patients comfort
- Sides emargination for simple installation and carry
- Configured for multiple treatments
- Different location choices to provide better immobilization for each patient

C-Series AIO Baseplate Solutions

Meicen C-Series Baseplates

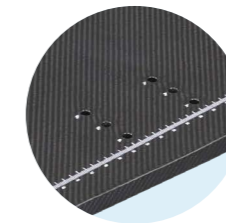

Meicen C-Series AIO Baseplate

MC-CF001	Carbon Fiber
MC-CG001	Glass Fiber MR

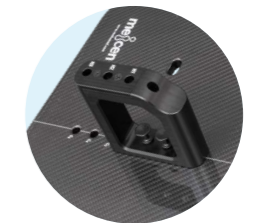

- Provide multiple treatment options for head, head-shoulders, thorax, pelvic and full-body support.
- Different location choices to provide better immobilization for each patient.
- The Leg Separator can be locked and removed easily, and adjusted to fit each patient.
- It can be adapted to the standard and narrow shoulder S-type Masks.
- Optional Overhead Arm Support and Shoulder Retractor can be used to improve the accuracy and comfort during treatment.
- Specification: 1300(L) x 606(W)/mm

Easily adjustable Hand Grips

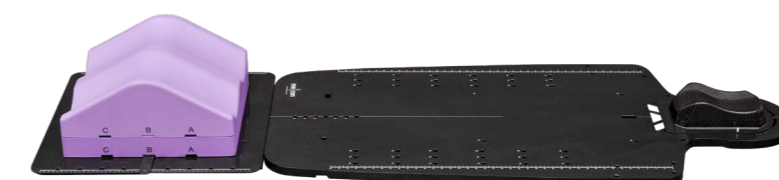

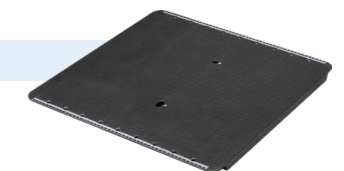

Adjustable to patient size

Leg Separator (optional)

Extension Board RC-EBF01

- Light weight, easy to move.
- Offers advanced indexing options.
- MR compatible: RM-EBG01

Meicen C-Series Baseplates

Meicen C-Series Head-Shoulder-Breast Baseplate

MC-CF002 Carbon Fiber

MC-CG002 Glass Fiber MR

- The contoured design for patients comfort.
- Sides emargination for simple installation and carry.
- Provide the highest degree of stability for head, head-shoulders and breast.
- It can be adapted to the standard and narrow shoulder S-type Masks.
- Comfortable and adjustable Hand Grips assist with shoulder retraction.
- Specification: 1000(L) x 606(W)/mm

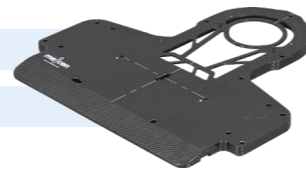

Meicen C-Series Head-Shoulder Baseplate

MC-CF004 Carbon Fiber

MC-CG004 Glass Fiber MR

- Specific design for Elekta HexaPOD™ evo RT System.
- Dual-configured for standard and narrow shoulder S-type Masks.
- Specification: 550(L) x 550(W)/mm

Meicen C-Series Pelvic Baseplate

MC-CF003 Carbon Fiber

MC-CG003 Glass Fiber MR

- The contoured design for patients comfort.
- Sides emargination for simple installation and carry.
- Different location choices to provide better immobilization for each patient.
- Specification: 850(L) x 575(W)/mm

Meicen C-Series Baseplates - Optional Components

Shoulder Retractor can effectively improve patient comfort and reduce inactive displacement, comfortable and adjustable Hand Grips assist with shoulder retraction.

Pin-Lock Shoulder Retractor MC-CG001-A01

Compatible with MC-CF001 and MC-CG001

Pin-Lock Shoulder Retractor MC-CG002-A02

Compatible with MC-CF002 and MC-CG002

Can be locked and removed easily, and adjusted to fit each patient.

Leg Separator MC-CG001-A04

Compatible with MC-CF001 and MC-CG001

Groin Lock MC-CG001-A03

Compatible with MC-CF001, MC-CG001, MC-CF003 and MC-CG003

Knee & Feet Cushion

- Improve the comfort of the patient when positioning.
- Can be fixed directly to the CT or treatment couchtop, or with the Meicen Extension Board.

Knee Cushion RE-FCA01

Feet Cushion RE-FCA03

Elevation Cushion RE-FCA02

Overhead Arm Support RC-ASF01

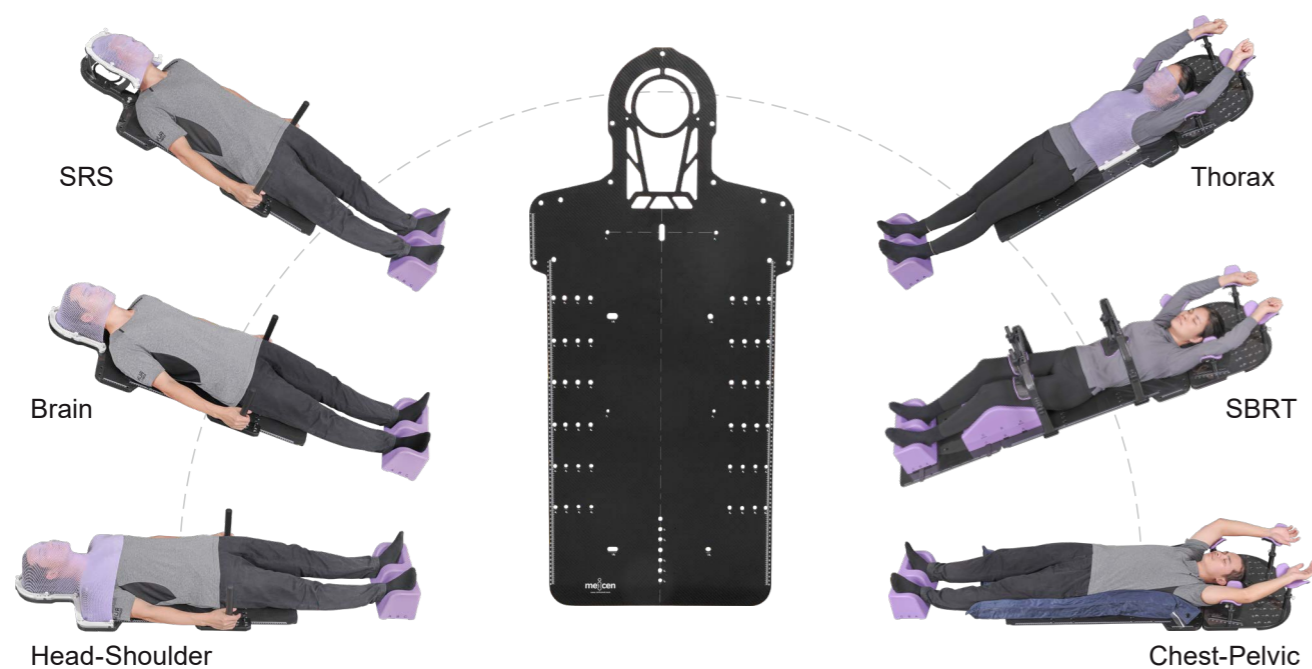

- It can be used together with the Meicen C-Series Baseplate MC-CF001 and MC-CF002 to improve reproducible precision and comfort in thorax and lung tumor treatment.
- The height of Wrist Supports can be adjusted to each patient.
- The angle of Arms Supports can be adjusted to each patient.
- MR compatible: RM-ASG01

Meicen Y-Series Baseplates

The Meicen Y-Series Baseplates have a Pin-lock design for easy operation, provide the highest degree of stability for head, head-shoulders, thorax, pelvic and full-body support. Dual-configured for adult and pediatric treatments. It is compatible with all S-type Masks and Meicen Pin-lock type Masks. The Y-Series AIO Baseplate can be combined with Meicen Belly & Knee Bridge for SBRT treatment needs.

- Contoured design for patients comfort
- Compatible with narrow shoulder S-type Masks
- Configured for multiple treatments

Meicen A-Series Baseplates

Meicen A-Series AIO Baseplate

MC-AF001	Carbon Fiber
MC-AG001	Glass Fiber MR

- Provides multiple treatment options for head, neck, shoulders, thorax, pelvic and full-body support.
- Different location choices to provide better immobilization for each patient.
- Shoulder Retractor can be used to improve the accuracy and comfort during treatment.
- Specification: 1300(L) x 550(W)/mm

Shoulder Retractor MC-AG001-A01

- Comfort and reduce inactive displacement effectively.
- Compatible with MC-AF001 and MC-AG001 for better patient comfort.

Compatible with

SRS Cradle - page 8 to 11

Vacuum Cushions - page 54 to 56

Meicen A-Series Baseplates

Meicen A-Series Head-Shoulder-Breast Baseplate

MC-AF002	Carbon Fiber
MC-AG002	Glass Fiber MR

- Contoured design for patient comfort.
- Sides emargination for simple installation and carry.
- Provides immobilization solution for head, neck, shoulders and breast.
- Specification: 1000(L) x 550(W)/mm

Meicen A-Series Pelvic Baseplate

MC-AF003	Carbon Fiber
MC-AG003	Glass Fiber MR

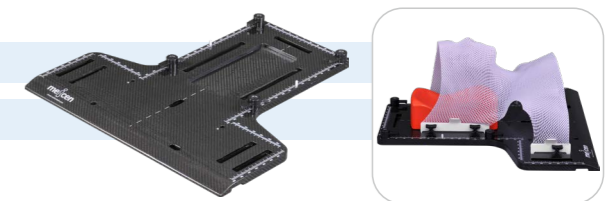

- Contoured design for patients comfort.
- Sides emargination for simple installation and carry.
- Provides immobilization solution for thorax, abdomen and pelvic.
- Specification: 850(L) x 520(W)/mm

Meicen A-Series Head-Shoulder Baseplate

MC-AF004	Carbon Fiber
MC-AG004	Glass Fiber MR

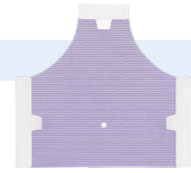

- Provides immobilization solution for head, neck and shoulders.
- Compatible with all U-frame Masks and L-type Masks.
- Compatible with Color Headrest RE-HSP5.
- Specification: 550(L) x 550(W)/mm

Meicen A-Series Baseplates - Optional Components

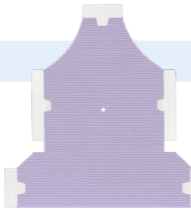

Triangular Head Mask (Page 40)

- M2422-VLA191W 22% perforation, 2.4mm
- M24RA-VLA580W Reinforced, 2.4mm

- 100x75cm, RC-E5020
- 70x70cm, RC-E4013

Color Headrest RE-HSP5

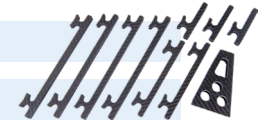

- Effectively improve patient comfort and reduce involuntary displacement.
- 5 Sizes, A to E.
- Can be compatible with A-Series Baseplates.

Meicen A-Series Baseplates - Optional Components

Block Set (standard)

- MC-AF001-A02 Carbon Fiber
- MC-AG001-A03 MR

Hand Grips (standard)

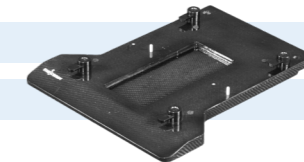

- RC-HGF01 Carbon Fiber
- RM-HGG01 MR

Meicen B-Series Baseplates

Meicen B-Series U-Frame Head Baseplate

- MC-BF003 Carbon Fiber
- MC-BG003 Glass Fiber MR

- Provides the head support.
- Compatible with all U-frame Masks.
- Compatible with Meicen all type headrests.
- Specification: 366(L) x 420(W)/mm

Meicen B-Series Tilting U-Frame Head Baseplate

- MC-BF004 Carbon Fiber
- MC-BG004 Glass Fiber MR

- Provides the head support.
- Compatible with all U-frame Masks.
- Tilting angles: 5°/10°/20°/25°/30°/35°/40°/45°.
- Compatible with Meicen all type headrests.
- Specification: 377(L) x 306(W)/mm

Meicen Wing Board

MC-WBF001	T-Grip, Carbon Fiber
MC-WBF002	U-Grip, Carbon Fiber

- The Meicen Wing Board is integrally formed with high-quality carbon fiber material, which is durable and lightweight.
- It's easy to use with Vacuum Cushion greatly improves the comfort of the patient's treatment and the accuracy of positioning.
- The patient's arm is raised to maintain a grasping state, which can improve the stability and accuracy of the patient's immobilization.
- The Meicen Wing Board can be used alone or in conjunction with the Meicen C-Series Baseplates, SBRT System and Supine Breast Board.

Wing Board T-Grip

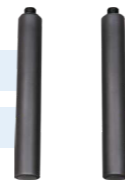

Wing Board U-Grip

MC-WBF001-A01	T-Grip Carbon Fiber

MC-WBG001 (MR Series)

T-Shaped Vacuum Cushion RC-E3010F

Meicen Supine Breast Board

MC-RXF002	Carbon Fiber
MC-RXG002	Glass Fiber MR

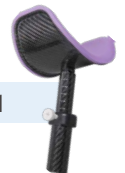

- The Supine Breast Board has 5 inclinations: 5°, 10°, 15°, 20° and 25°.
- Simple, customizable setups for patient comfort and clearance.
- Contoured lumbar area and enhanced bottomstop with easy locking.
- Compatible with S-type Head Masks for stable, reproducible supraclavicular treatments.
- Compatible with Meicen Breast Masks.
- Specification: 1325(L) x 445(W)/mm

Arm Support MC-RXF001-A02

Wrist Support MC-RXF001-A01

Compatible with

M2422-VSH190W	Breast Mask, 22% perforation, 2.4mm
M3038-VSH480W	Breast Mask, 38% perforation, 3.0mm

Compatible with Breast Mask can be reduced the patient's involuntary displacement and improve the repeatability and comfort of the positioning.

Meicen Prone Breast & Belly Solutions

Meicen Prone Breast Board

MC-RBF001	Carbon Fiber
MC-RBG001	Glass Fiber MR

- Variable aperture openings to accommodate different breast sizes.
- Multiple heterolateral wedge sizes to assist with patient tilt.
- Adjustable and durable massage-style face cushion.
- Scale rulers for easy verification of longitudinal and lateral position of the patient.
- Reversible breast section allows for treatment of either breast.
- Specification: 1570 (L) x 450 (W) x 150 (H)/mm

MC-RBG001-A01

MC-RBG001-A02

MC-RBG001-A03

MC-RBG001-A04

MC-RBG001-A05

Compatible with

M2422-VHT289W	Trunk Mask, 22% perforation, 2.4mm
M3038-VHT550W	Trunk Mask, 38% perforation, 3.0mm

Compatible with Trunk Mask together can be reduced the patient's involuntary displacement and improve the repeatability.

Meicen Prone Breast & Belly Solutions

Prone Breast Cushion MC-RBE001

- The Breast-bridge can be converted left and right according to the treatment plan.
- The U-shaped cushion can be selected S, M, L size.
- The rail-type prone headrest with head to feet direction and the four-levels elevation angle can be adjusted to meet individual needs.
- Compatible with C & Y-Series AIO Baseplate.

Prone Headrest

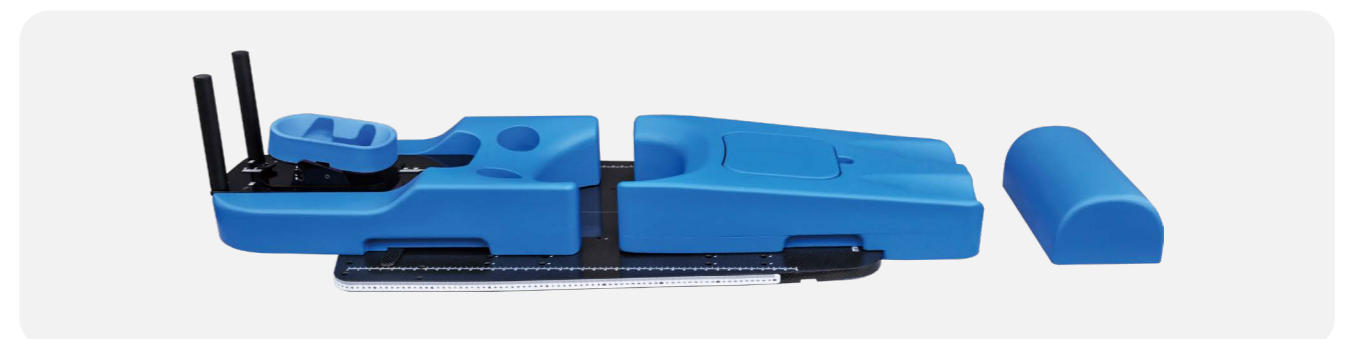

Prone Belly Cushion MC-RPE002

- The rail-type prone headrest with head to feet direction and the four-levels elevation angle can be adjusted to meet individual needs.
- Dual-configured for female and male treatments.
- It can be used with Trunk Mask to improve the immobilization effect.
- Compatible with C & Y-Series AIO Baseplate.

Prone Headrest

Meicen Violet Thermoplastic Masks

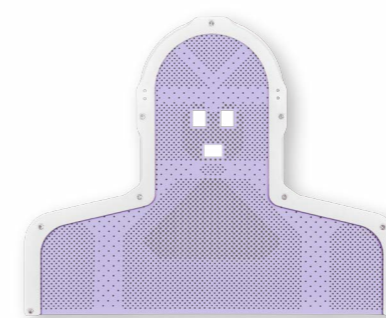

Meicen Violet Thermoplastic Masks are composed of a new, premium thermoplastic material designed specifically to offer the ultimate in patient comfort with exceptional rigidity and extremely low shrinkage. Available in multiple perforation styles and compatible with most manufacturers' baseplates, our violet thermoplastic's primary focus is the patient experience.

- Low shrinkage
- Optimal molding time
- Ergonomically designed for patient comfort
- Non-Stick
- Violet color to alleviate patient anxiety

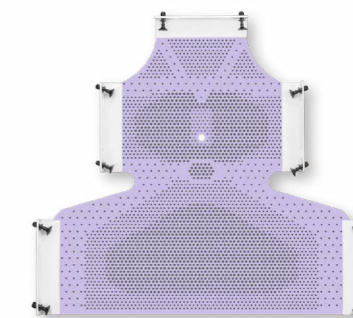

Meicen Violet Thermoplastic Masks

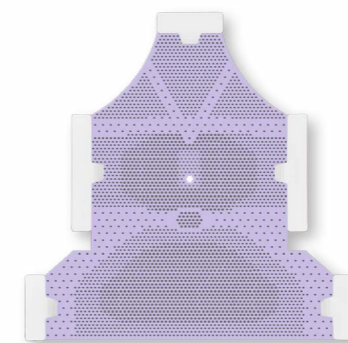

Meicen Reinforced Series Masks feature a combination of enhanced perforation and solid thermoplastic to provide rigidity and secure immobilization for IMRT treatments. Openface Masks can be compatible with SGRT (Surface Guided Radiation Therapy) camera systems.

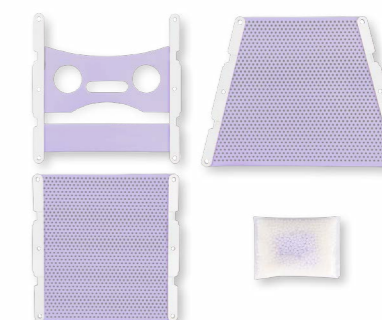

S-type Reinforced

P-type Reinforced

L-type Reinforced

Stereotactic X-Knife

Meicen Violet Thermoplastic Masks are easy to prepare and can be heated by water bath at 65-70°C (149-158°F) or oven at 70-75°C (158-167°F).

Moulding Time: 1-2 minutes

Cooling Time: 8-15 minutes

Thickness 2.0mm, 2.4mm, 3.0mm or 3.2mm are available.

Please contact our sales representative for more information.

Diagnostic Couchtop Overlays

- The Couchtop Overlays provide a clean, flat surface for accurate and easily reproducible patient positioning.
- The internal density distribution of the product is uniform, and there is no unacceptable artifact in the scanning area.
- Can be quickly installed and disassembled, simple and convenient.
- It is stable and reliable after installation and meets the leveling requirements.
- The Couchtop Overlays are designed to work with Indexing bars as well as other positioning systems.

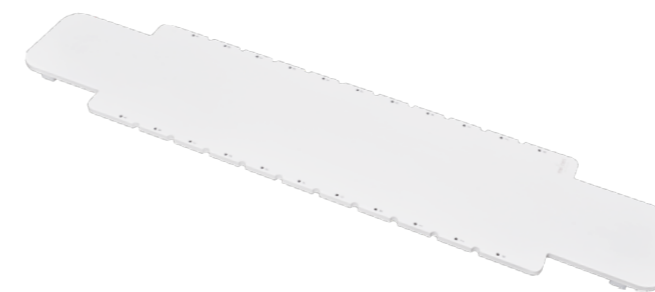

* The Couchtop Overlays can be customized according to the user's CT or MRI equipment.

MC-CTF019 CT Overlay

Compatible to Somatom CT Definition AS+

MC-MRG002 MRI Overlay

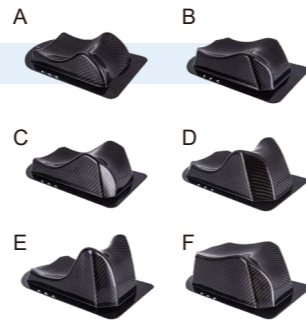

Compatible to Philips Ingenia Overlay

Headrests

The headrests included in sets can also be ordered separately, and for other manufacturers' baseplates are available upon request.

Carbon Fiber Headrest RE-HSF6

- Sturdy and durable.
- 6 sizes A to F.
- Compatible with all S-type baseplates.

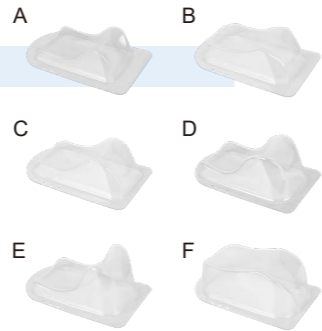

Color Headrest, S-type RE-HSB5

- PU material with customized CT or MR safe, soft and comfortable.
- 5 sizes A to E.
- Compatible with all S-type baseplates.

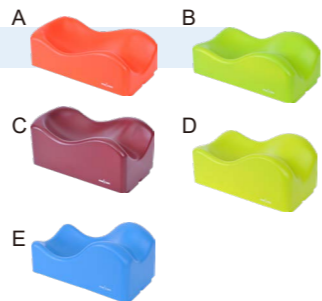

Clear Headrest RE-HSC6

- 6 sizes A to F.
- Compatible with all S-type baseplates.

Color Headrest, A-type RE-HSP5

- Customized CT or MR safe, soft and comfortable.
- 5 sizes A to E.
- Compatible with Meicen A & P Series and MacroMedics Baseplates.

Shim

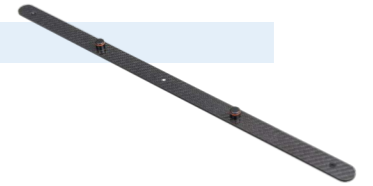

- Shim for Head, RE-HSA04
- Shim for Head-Neck-Shoulder, RE-HSA05

Indexing Bars

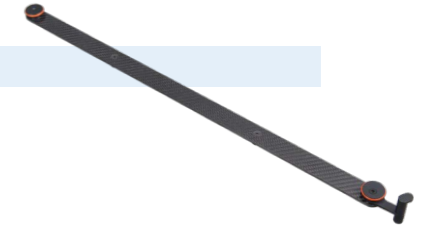

For Elekta Couchtops

- RC-LBE01 Aluminum
- RC-LBE02 Carbon Fiber
- RM-LBE01 Glass Fiber MR

For Varian Couchtops

- RC-LBV01 Aluminum
- RC-LBV02 Carbon Fiber
- RM-LBV01 Glass Fiber MR

For Vacuum Cushions

- RC-LBC07 Carbon Fiber

For Meicen C-Series AIO Baseplate

- RC-LBV03 Carbon Fiber for Varian Couchtops
- RC-LBE03 Carbon Fiber for Elekta Couchtops

Vacuum Cushion Accessories

Vacuum Cushion Positioners Strip RC-LBC02

- Carbon Fiber

Vacuum Pump R-PM002

- 220V voltage
- It has two functions: vacuuming and inflating with two mechanical pressure gauges.

Others

Pin-Lock Shoulder Retractor MC-CG001-A01

- It can be used with the MC-CF001 and MC-CG001 which can effectively improve patient comfort and reduce inactive displacement.

Pin-Lock Shoulder Retractor MC-CG002-A02

- Compatible with MC-CF002 and MC-CG002.

Pin-Lock Shoulder Retractor MC-YG001-A03

- Compatible with Meicen MC-YF001 and MC-YG001.

Shoulder Retractor MC-AG001-A01

- It can be used together with MC-AF001 and MC-AG001 to effectively improve patient comfort and reduce inactive displacement.

Hand Grips RC-HGF01 Carbon Fiber

Hand Grips RM-HGG01 MR

- It can be used with the Meicen Shoulder Retractors and Baseplates.

Knee Cushion RE-FCA01

- Easy to operate, improve the comfort and stability of supine position during fixation.
- It can be directly fixed on the CT or MR couchtop for leg immobilization.

Elevation Cushion RE-FCA02

- It can be used together with the Knee Cushion RE-FCA01.

Feet Cushion RE-FCA03

- Easy to operate, improve the comfort and stability of supine position during fixation.
- It can be directly fixed on the CT or MR couchtop for feet immobilization.

Water Bath 04RF-G2

- Inner size: 700 x 550 x 120mm.
- Stainless steel material, suitable for 220V voltage.

Bolus

- 300 x 300 x 5mm
- 300 x 300 x 10mm
